# OUR SOLUTIONS ARE

REPEATABLE  
TRACEABLE  
SCALABLE  
PREDICTABLE

## WHAT WE DO ...

Onshore delivers custom manufacturing solutions with the highest quality and overall value, proudly made in the USA.

## COMPANY HISTORY

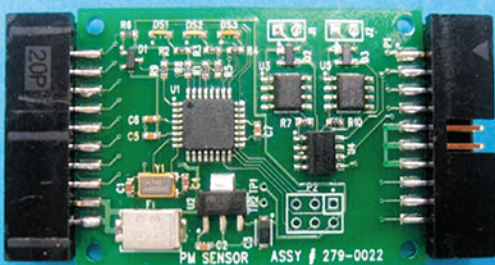

Onshore has been developing manufacturing solutions for other companies' products for over 28 years.

In Onshore's experience, it is not unusual for good products to languish because of the absence of a viable manufacturing solution.

Onshore's contract manufacturing services are well known to customers in the medical, automotive, telematics and aerospace markets.

## WHY CHOOSE US?

- ✓ We require that every process we perform is verified at the time it is executed.
- ✓ Onshore develops and builds the tools, machines and process around the product.
- ✓ Every operator is trained and charged with a quality role regarding the component or subassembly coming to them and the quality of their execution.

**Onshore** Technologies

*Delivering custom manufacturing solutions with the highest quality and overall value, proudly made in the USA.*
